

ARCUS MULTICLOUD ROUTER

Join the world's fastest cloud-to-cloud network

As Enterprises move applications to the cloud, their IT leaders have come to realize that the traditional MPLS based WAN Extensions for Enterprise Cloud and SaaS connectivity are suboptimal, expensive and non-performant. Apcela has designed a unique way to consume the private multicloud connectivity in the most performant manner utilizing SD-WAN, Network Virtualization, and the power of orchestration to offer world's fastest multicloud connectivity platform, delivered in minutes.

The result is the **Arcus Multicloud Router**, comprised of a physical Cisco SD-WAN appliance for customer prem and a virtual Cisco SD-WAN appliance deployed in Equinix NetworkEdge.

Shortest Path to the Cloud

Connect to any cloud or SaaS anywhere in the world using the fastest connection available

Automate Multicloud Connectivity

Connect to Public Clouds in real-time without requiring human intervention

One Connection, Multiple Clouds

Connect to multiple cloud service providers (CSPs) such as AWS, Azure, GCP, OCI, and more

Offer Includes:

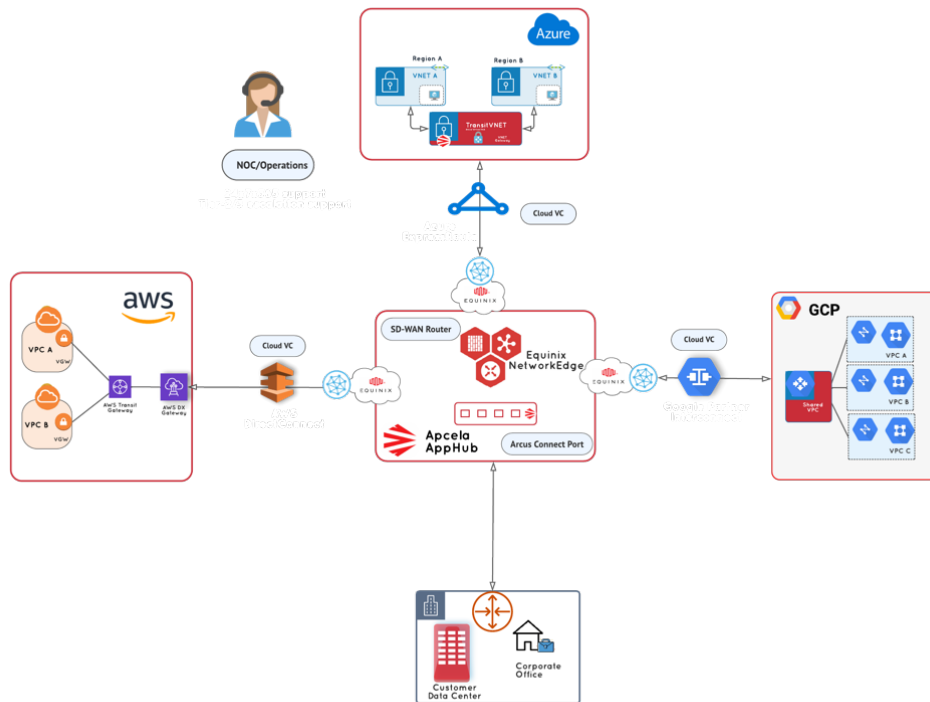

- Physical multicloud router
- Virtual multicloud gateway
- SD-WAN license for Equinix NetworkEdge*
- Dedicated 1G or 10G cloud connections
- Multicloud configuration portal, including end-to-end orchestration of connectivity for Equinix NetworkEdge and Fabric for CSPs
- 99.9% - 99.999% guaranteed uptime
- Private fiber peering with public clouds and SaaS
- 24/7/365 support
- Month to month contracts

ARCUS MULTICLOUD ROUTER

Apcela Arcus Connect Multicloud Router/Service

Components:

1. Physical SDWAN Router for customer site/datacenter
2. Dedicated 1G/10G access to proximate Apcela AppHub
3. Arcus Connect port for access termination
4. Equinix NetworkEdge based virtual SD-WAN Router (BYOL or Apcela provided license)
5. Private Cloud On-ramp via Equinix Fabric
 - AWS Direct Connect
 - Azure ExpressRoute
 - GCP Dedicated Interconnect
 - OCI FastConnect and many more
6. 24/7/365 support

Apcela's Guarantee: If you don't love it, we'll cancel your contract and pay you \$10k

*Requires Equinix Regional Account, NetworkEdge License and Internet Connectivity
